Progress Report - Semester 2 - Week 1
Team 179 - USB RF Switch Controller

Sponsored by Phonon Corporation

1/19 - 1/25
Meeting Held 1/23
Overview

Met with team members to discuss work performed over winter break and work required for second semester.

- Discovered boost converters capable of boosting from 5V to 28V to switching channels individually without need for charging and discharging capacitors.

Additional Goals

- Develop arduino code.
- Conduct further tests for boost converters.
