Progress Report - Semester 2 - Week 3
Team 179 - USB RF Switch Controller

Sponsored by Phonon Corporation

2/2 - 2/8
Meeting Held 2/6
Overview

Met with team members to discuss organization of system to be placed in container and further develop arduino code.

- Decided upon container and organization of entire system within container.
- Continued development of arduino code.
  - Able to send data through serial.
  - Able to turn individual channels on as needed.

Additional Goals

* Take container to machine shop to be cut.
* Continue development of arduino code.
  - Maintain simultaneous loop and switching to individual ports.
  - Develop method to send data through serial from windows terminal.
