ECE 4902: Computer and Electrical Engineering Design II
Spring 2017

Instructors:

John Ayers ITE 461
Tel: 860-486-5523  FAX 860-486-2207
e-mail: jayers@engr.uconn.edu

Rajeev Bansal ITE 452
Tel. 860-486-3410  FAX 860-486-2447
e-mail: rajeev@engr.uconn.edu

Ali Bazzi ITE 331
Tel: 860-486-5377  FAX 860-486-2447
e-mail: bazzi@engr.uconn.edu

John Chandy ITE 437
Tel. 860-486-5047  FAX 860-486-2447
e-mail: john.chandy@uconn.edu

Ashwin Dani ITE 467
Tel: 860-486-3344  FAX 860-486-2447
e-mail: dani@engr.uconn.edu

Shalabh Gupta ITE 341
Tel: 860-486-3494  FAX 860-486-2447
e-mail: shalabh.gupta@engr.uconn.edu

Helena Silva ITE 457
Tel. 860-486-5517
e-mail: helena.silva@uconn.edu

Peter Willett ITE 353
Tel. 860-486-2195
e-mail: peter.willett@uconn.edu

Peng Zhang ITE 352
Tel. 860-486-3075  FAX 860-486-2447
e-mail: zhang@engr.uconn.edu

Shengli Zhou ITE 343
Tel. 860-486-4593
e-mail: shengli.zhou@uconn.edu

Lab Engineer: Shane Eagleson, ITE 462, 486-5660
Web site: http://ecesd.engr.uconn.edu

Laboratory Use: The ITE C19 and ITE C43 laboratories are available 24 hours a day, seven days a week. You can schedule your work at times convenient to you. However, a common laboratory time (Fridays 12:20-4:25 pm) has been established to facilitate team work.

Description: Design of a device, circuit, system, process, or algorithm. Team solution to an engineering problem as formulated in ECE 4901, from first concepts through evaluation and documentation. Written progress reports, a final report, and oral presentation are required. Three credits.

Course Objective: The course objective is to provide an opportunity for students to apply their engineering knowledge to solve open-ended design problems using a multidisciplinary team approach.

Teams: Each team must include at least three students. Each team must be multidisciplinary in nature; this is normally accomplished by including students from different programs (including EE, CMPE, EngPhys, ME, and CSE). In some cases, all participants on a particular team may be from the same program. In such a case, team members are chosen such that the members have different concentrations, expertise, or strengths. Each week you will meet with your assigned advisor as a team. At the weekly team meeting, each team member will report on progress during the previous week and plan for the following week.

Text: none.

Notebooks: Each student must maintain a laboratory notebook in which all work is recorded. Each entry in the notebook must be dated. You must bring your notebook to each group meeting.

Web site: Each team will maintain a web site. Each team must post a weekly progress report and a final report.

Grading: The following will be used to determine the final grades:

<table>
<thead>
<tr>
<th>Component</th>
<th>Due Dates</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Weekly individual deliverables</td>
<td>weekly</td>
<td>20%</td>
</tr>
<tr>
<td>Weekly Team deliverables</td>
<td>weekly</td>
<td>5%</td>
</tr>
<tr>
<td>Midterm design review</td>
<td>March 6-10</td>
<td>5%</td>
</tr>
<tr>
<td>Final oral presentation(^1)</td>
<td>April 14, 21</td>
<td>10%</td>
</tr>
<tr>
<td>Completed Project</td>
<td>April 28</td>
<td>45%</td>
</tr>
<tr>
<td>Final Report &amp; Web Site</td>
<td>April 28</td>
<td>15%</td>
</tr>
</tbody>
</table>

\(^1\) The 10% grade for the final presentation includes 5% for attendance and feedback on other presentations.
